

# Natural care for face, body and feet

high-quality cosmetic line for all skin types  
with Propolis, Royal Jelly and Rose oil

## Propolis, the power of nature for skin and foot care

### What is Propolis?

Bees collect nectar from flowers. Propolis comes into being by enriching this nectar with their endogenous secretions. Bees are using Propolis as a natural antibiotic to protect the hive against infections and isolate it against heat, cold and moisture. Scientific analyses have shown the extraordinary composition of Propolis (inter alia vitamins of the B-group, Vitamin E, H, P, flavonoides, butulen, vanillin, isovanillin, quercetin, trace elements like zinc, vanadin, iron, copper, glucosides and essential oils).

### What is Gelée Royale?

Royal jelly, also known as Queen's Juice, is produced by the young working bees in a special food gland. All the bee grubs are fed for the first three days with this concentrated juice. After that, only the larvae of the Queen Bees are able to get the Royal Jelly. The fast physical development of the Queen Bee and the unusual high life expectation are the attributes to the enormous potential of active substances in Royal Jelly.

### Company's history

After suffering a vocal cord paralysis, opera singer Germán Remmele-Fischer was successfully treated with the bee resin Propolis. After that he turned his job as opera singer into his hobby and made the selling of Propolis as his professional life content. During his training in medical foot care, he discovered the natural product Propolis as a horn-solver for the external application on foot. He developed the three basic products: Solution, Balm Spray and Balm for Feet and Body Care just as a cosmetics range. This was the foundation for today's Remmele's Propolis GmbH which is now managed in Berlin by the medical practitioner and podiatrist Torsten Seibt.

## Propolis Balm Spray

For the daily body care

### Usage

Nourishing spray for the whole body:

- accompanying sports activities
- skin care during dry and wet seasons
- as a refresher after shaving
- as an additive in foot and full baths
- for cleaning the outer ear region, especially when wearing glasses or hearing aids
- for animal care and crop maintenance
- to deodorize body, feet, stockings, the insides of the shoes, dresses, wardrobes, toilets, smoky rooms, and cars etc.

Art.-Nr. 0071  
75 ml

Art.-Nr. 0072  
500 ml

### Mode of action

Menthol, Eucalyptus and Lemon oil have deodorizing, refreshing and cooling properties. Rosemary, Juniper and Wintergreen oil strengthen, revitalize and promote the blood circulation. Propolis and Anise oil contain bioflavonoids, inhibiting the spread of microorganisms. The unique mixture of natural oils leaves a relaxing and soothing note in the air.

### Application

Please spray directly onto the skin or into the cupped hand, then spread it, if massage is needed then palpitate it in carefully; do not spray it into the eyes

### Active substances

Propolis liquid extraction, eucalyptus oil, lemon oil, juniper oil, lavender oil, anise oil, wintergreen oil and menthol

## Propolis Solution

Horn-solvent, sealing, caring

### Usage

- for skin care
- for loosening up calluses
- for fixing and preserving tamponades
- for impregnation of dressings
- for skin care after tatoos, permanent make-up and piercings
- for sealing of slight skin abrasions
- to cure acne
- for animal care

Art.-Nr. 0084  
10 ml

Art.-Nr. 0081  
30 ml

Art.-Nr. 0082  
75 ml

Art.-Nr. 0083  
150 ml

### Mode of action

Because the solution is not water-soluble, it does not penetrate into the deeper skin layers but rather built a protective cover on the cornea. It softens the excess calluses and makes it easier to come off the skin. The comprised dry substance enhances elasticity and litheness of the skin. The bioflavonoids contained in Propolis inhibit proliferation of microorganisms.

### Application

Apply selectively on the skin. After drying no further coloring will take place (characteristic for this natural product). Be careful, don't get it in contact with the eyes!

### Active substance

Propolis liquid extraction

## Natural cosmetics

for body and soul

## Propolis Balm

The daily body care  
Optimal for diabetics

### Usage

For the daily care of the whole body:

- for hand and foot massages
- for skin care against scars of all kinds
- for skin cracks
- for after treatment of permanent make-up
- for friable and cracked skin
- to treat skin during long bed stay
- for baby skin care
- for skin irritations after sun burns
- for highly stressed parts of the body for example, cyclists, riders, joggers, long distance runners

### Mode of action

The combination of Propolis, honey and olive oil enhances the elasticity and tonicity of the mucosa. Even the very dry skin becomes soft and smooth. Propolis is extremely rich in vitamins, trace elements and minerals. Propolis contains essential amino acids, enzyme and bioflavonoids which soothe pain and reduce inflammation, absorb toxic substances, strengthen the immune system. The natural Vitamin E from olive oil protects against free radicals.

### Application

Apply a thin layer regularly. If needed, massage it in carefully

### Active substances

Propolis liquid extract, honey and olive oil

Art.-Nr. 0061  
50 ml

Art.-Nr. 0062  
250 ml

## Propolis Shea Bam

For the daily body care  
Optimal for diabetics

### Usage

Suitable for the daily care of the whole body, especially for dry skin, often flaky skin (i. e. professional-damaged skin, aged skin), for neurodermatitis, care for scars of all kind and after sunburn.

**TIP:** Shea Balm is optimal for the skin care of diabetics!

### Mode of action

It enhances the elasticity and toxicity of the skin, even the very dry and chapped skin is getting a soft and smoothed appearance. Shea Butter serves as a basis and renders itself perfect through a good replenishment, a good moistened and a skin smoothing effect. The containing allantoin has an anti-inflammatory effect and supports the skin for a faster regeneration.

### Application

Apply thinly and evenly, if needed, gently massage it in

### Active substances

Propolis liquid extraction and shea butter

Art.-Nr. 0067  
50 ml

Art.-Nr. 0068  
200 ml

*Holistic care  
with propolis  
and shea butter*

## Propolis Hand Balm

Rich protective skin care

### Usage

Apply several times a day, especially when hands are stressed, dry and chipped.

### Mode of action

It keeps the hands smooth, without leaving a greasy feeling. Propolis and Shea Butter increase the elasticity and suppleness of the skin. The containing Propolis has soothing and anti-inflammatory properties. The Hand Balm forms an invisible protective film and leaves give the hands a subtle scent.

### Application

Apply a thin layer evenly for the daily care, especially during cold weather

### Active substances

Propolis liquid extract and shea butter

Art.-Nr. 0070  
50 ml

## Cleansing Cream with Royal Jelly

Mild moisturizing facial cleansing

### Usage

For mild face cleansing for all skin types; also for very dry, sensitive and demanding skin. It is also appropriate for the gentle removal of eye make-up. For oily and blemished skin cleansing cream may be used as day care

### Mode of action

The skin is gently cleansed. Royal Jelly causes a pleasant moisturizing and a smoother skin texture to remain intact the natural oil and moisture levels of the skin.

### Application

Apply with moistened fingertips and evenly disperse, than remove with warm water

### Active substances

Propolis liquid extract, royal jelly and rose oil

Art.-Nr. 0021  
150 ml

Art.-Nr. 0022  
500 ml

## Peach Tonic with Royal Jelly

Refreshing care for all skin type

### Usage

Nourishing and refreshing face water; suitable for all facial types

### Mode of action

Because of panthenol the tonic acts soothing and relaxing. It restores the pH value and the acidic protective coating of the skin after cleaning. Because of high quality peach extracts and glycerin it renders moisture preserving and particularly mild because it contains no alcohol.

### Application

Apply the tonic with a cotton swab on the skin in the morning and in the evening. After a short contact time the appropriate after-treatment can be performed.

### Active substances

Royal jelly, panthenol, peach extract and glycerin

Art.-Nr. 0031  
150 ml

Art.-Nr. 0032  
500 ml

*Valuable active ingredients  
for all skin types*

Art.-Nr. 0024  
50 ml

Art.-Nr. 0025  
200 ml

## Propolis Peeling Cream

Full body peeling for all skin type

### Usage

Suitable for all skin types, also for sensitive skin and as body exfoliant.

### Mode of action

Micro-fine jojoba-wax pearls, which melt slowly through one's body temperature, gently and carefully remove skin impurities and callous material. The complexion appears softer, more even and smooth. The mild emulsion is the optimal preparation for the following skin care.

### Application

Apply 1–2 times per week. Put into moisturized hands and rub into the face or onto the body with circular movements. Rinse off with warm water.

### Active substances

Propolis liquid extraction, jojoba wax balls and rose oil

## Propolis Day Cream

For normal, young and combination skin

### Usage

skin-image dependent on day and night care suitable, ideal as make-up basis

### Mode of action

Hydrating and revitalizing skin care. Its light consistency quickly moves into the skin and does not grease. Propolis acts as a normalizer, Royal Jelly stimulates the appearance of the skin.

### Applications

After a thorough cleansing of the face, apply carefully to face and throat and massage it in gently.

### Active substances

Propolis liquid extract, royal jelly, rose oil and squalane

Art.-Nr. 0001  
50 ml

Art.-Nr. 0002  
200 ml

## Propolis Active Day Cream

Moisturizing and regenerating

### Usage

Recommended for all skin types, but especially for the demanding skin. To be used as day and night care. Nutrients and caring substances are being fed to the skin.

### Mode of action

Moisturizing and regenerating skin care. Even dry skin shows an apparent velvety glow without leaving a greasy feeling.

### Application

To be applied onto face and collar after careful face cleansing. Massage it in gently.

### Active substances

Propolis liquid extract, Shea-Butter, glycerol, allantoin

Art.-Nr. 0006  
40 ml

Art.-Nr. 0007  
200 ml

## Propolis Night Cream

For dry and stressed skin

### Usage

Nourishing cream for overnight recovering dry and stressed skin; It also can be used as day care for very dry skin, especially during the winter time.

### Mode of action

Night Cream is rich in unsaturated fatty acids, which are very important for cell renewal and cell metabolism. Bee wax and fine cosmetic oils care and protect the skin.

### Application

After a thorough cleansing of the skin, apply carefully and massage it in gently.

### Active substances

Propolis liquid extract, grape seed oil, lanolin, bee wax and rose oil

Art.-Nr. 0011  
50 ml

Art.-Nr. 0012  
200 ml

## Propolis Special Cream

For sensitive and dry skin

### Usage

Especially for sensible skin, which has a tendency to have allergic reactions and irritations; skin outlook depends on the season. Applicable as day and night care

### Mode of action

Because of panthenol, the cream reassures and soothes the skin redness and irritations. Valuable vegetable oils protect and care the skin and enhance the ability to retain moisture. The containing vitamins A and E protect against free radicals and have a regenerating effect.

### Application

Apply after thorough cleansing

### Active substances

Propolis liquid extract, vitamin E acetat, vitamin A palmitat, panthenol, jojoba oil, grape seed oil, rose oil, squalan, macadamia nut oil, glycerin and bee wax

Art.-Nr. 0014  
50 ml

Art.-Nr. 0015  
200 ml

## Propolis Nutritive Cream

for dry and aged skin

### Usage

Recommended for dry and aged skin, especially if there is a hypofunction of the sebaceous glands; skin outlook depends on season. Applicable as day and night care.

### Mode of action

It soothes skin when irritated and target the hectic red spots; it slightly smoothes the skin, especially dry wrinkles. High quality vegetable oils protect and care the skin, and helps avoiding skin scales. Propolis, bee wax and skin-friendly oils protect against wind and weather.

### Application

To be used after thorough cleansing.

*Tip: Due to the high quality ingredients it applies very well as mask. Please apply generously.*

### Active substances

Propolis liquid extract, grape seed oil, rose oil, squalan, lanolin and bee wax

Art.-Nr. 0044  
50 ml

Art.-Nr. 0045  
200 ml

*Truly beautiful  
by natural care*

## Propolis Carotene Moisture Cream

Moisture-preserving care for day and night

### Usage

Especially suited for moisture-preserving care of normal to dry skin to be used for day and night.

### Mode of action

The moisturizing care contains a natural moisturizing factor and precious plant oils. It helps to regulate the humidity, especially in degraded hydro-lipid cover. It also contains beta carotene, which supports the skin with Vitamin A and protects the free radicals and finally prevents premature skin aging.

### Application

To be used after thorough cleansing.

### Active substances

Beta-carotene, Propolis liquid extract, grape seed oil, bee wax, light protection filter and rose oil

Art.-Nr. 0041  
50 ml

Art.-Nr. 0042  
200 ml

## Propolis Wheat-germ Cream Mask

For particularly sensitive, dry and demanding skin

### Usage

This product should be used for sensitive, dry and demanding skin.

### Mode of action

Art.-Nr. 0034  
40 ml

Art.-Nr. 0035  
200 ml

## Honey Propolis Mask

Rich care for a fresh charisma

### Usage

environmental influences and sun exposure.

### Mode of action

A combination of active substance from honey and Propolis soothes and relaxes the skin. It contains the vitamins A and E, which protect against free radicals and help to reduce premature skin aging. It preserves moisture with the aid of natural vegetable oils. Panthenol acts as a soothing agent after sun exposure for tired and weary skin; they get new energy and a fresh appearance.

### Application

Additionally to the daily care, apply 1–2 times per week generously on face and cleavage. Leave it on for 20 minutes and gently massage the remainders in.

*Tip: Also recommended as hand and foot package*

### Active substances

Honey, Propolis liquid extract, avocado oil, vitamin E acetat, panthenol and bee wax

Art.-Nr. 0027  
40 ml

Art.-Nr. 0028  
200 ml

## Eye Contour Cream with Royal Jelly

Intensive care for the eye area

### Usage

Intensive care of the delicate area around the eyes and also serves as a base for eye make-up

### Mode of action

The high quality combination of active substances protects and regenerates the delicate eye area against free radicals. The fine and sensitive skin is optimally supplied with moisture. The cream is devoid of creeping oil.

### Application

Tap it softly on the skin around the eyes in the morning and in the evening. Use accordingly.

### Active substances

Royal jelly, almond oil, alantoin, squalan, castor oil and sodium PCA

Art.-Nr. 0055  
15 ml

*Relaxation  
and care for the skin*

## Body Lotion with Royal Jelly

For the daily body care

### Usage

Creamy lotion for daily body care

### Mode of action

It lets the skin appear smoother and leaves a protective film on it. High quality squalan and rose oil nourish the skin and reduce the loss of moisture. It is quickly absorbed by the skin and leaves no residue on the clothing.

### Application

Apply thinly after showering or bathing

### Active substances

Propolis liquid extract, royal jelly, squalan and rose oil.

Art.-Nr. 0074  
150 ml

## Propolis Balm Royale

Rich and restorative care

### Usage

Rich balm for aged skin in need of regeneration and revitalization especially for lips.

### Mode of action

The natural vitamin E contains olive oil, which protects against free radicals and enhances the elasticity of the skin. The natural rose oil with its revitalizing properties supports cell regeneration, and acts against the sag of the skin and wrinkle formations.

### Application

After thorough cleansing of the skin, apply and gently massage it in.

### Active substances

Propolis liquid extract, royal jelly, olive oil, honey and rose oil

Art.-Nr. 0064  
50 ml

Art.-Nr. 0065  
250 ml

*Healthy and vital  
every season*

## Propolis Lip Balm

Moisturizing lip care

### Usage

It protects the lips from weather influences, such as heat and cold and from dry ambient air; effective for very brittle and dry lips all year round

### Mode of action

The highly active ingredients moisture and fatten the lips. Natural rose oil gives the balm a pleasant fragrance.

### Application

Apply softly onto the lips

### Active substances

Propolis liquid extract, royal jelly, olive oil, rose oil

Art.-Nr. 0059  
8 ml

## Beauty Ampullas with Royal Jelly

Treatment for dehydrated skin

### Usage

For demanding and dehydrated skin

### Mode of action

Highly specific hyaluronic acid supplies moisture and thus preserves the elasticity and tension of the skin. Royal Jelly acts as normalizer and supports the natural regeneration processes of the skin. Collagen tightens the skin and has a regenerating effect. The skin looks smoother.

### Application

Use 1-2 weekly in the evening. Tap in softly into the skin and let it work during the night. Or use it for an immediate impact (effect ampulla). This product is recommended as cure treatment.

### Active substances

Hyaluron acid, royal jelly and sea collagen

Art.-Nr. 0101  
box with 6 ampullas  
à 2,5 ml

## Royal Jelly Drinking Ampullas

Drinking to enhance the vitality –  
also suitable for diabetics

### Usage

Essential vital substances are provided to the body:

- for strengthening in times of high physical and mental stress.
- for increasing endurance and performance
- for more support of the natural immune system
- for building up energy reserves, stimulation of the state of mind
- for reduction of aging.

### Mode of action

Research could prove that the biodynamic active agents of Royal Jelly exercise a profound influence on the human organism. The whole organism is strengthened after drinking this high quality bee product. Royal Jelly contains many essential amino acids, proteins, enzymes, coenzymes, natural hormones, carbohydrates, lipids, potassium, calcium, phosphor, copper, iron, silicon, nucleic acid, vitamins H, A, C, D, and E, and almost the whole of the vitamin B-complex.

### Application

This product should be used on a cure base, drinking one quarter of an ampulla per day (approximately 1 teaspoon) for breakfast. Also suitable for diabetics, 1 ml contains approximately 0,015 bread unit.

### Active substances

Fructose, acerola, sucrose, lemon acid, Vitamin E powder, royal jelly, vitamin E powder, carragenan and potassium citrate

Art.-Nr. 0092  
box with 6 ampullas  
à 10 ml
